ANNUAL REPORT

OF THE

TOWN SCHOOL BOARD.

This report covers the year commencing March 1, 1900, and ending March 1, 1901. The legal school year commences August 1, 1900, and ends August 1, 1901.

The same number of schools have been maintained as in the past and with the same teachers with one exception. On account of ill health one teacher was obliged to resign, and her place was filled by another who has had experience in the past.

The work of the four schools the past year has been fully up to the standard of previous years. Teachers have been earnest in their efforts to instruct, and scholars have responded with commendable diligence, so that good progress has been made. We propose to maintain the usual number of weeks' schooling, 32 for the year.

The number of scholars who wish to take the course at the Seminary are increasing and may call for an additional amount of extra school money.

We would say to those who have scholars in our schools, do not let your interest in them flag, stimulate them by your presence, visit often, it will increase their interest and awaken their ambition, and the results will be more satisfactory.

Number weeks of school in each room,	32

ANNUAL REPORT
OF THE
BOARD OF EDUCATION,
Of Union School District, No. 1, in Tilton.

In presenting this annual report of the schools in Union School District, it affords us great pleasure to be able to say that the year has been one of progress and success.

We have retained the same corps of teachers with two exceptions, and this has been of great advantage to us.

Mr. Hulse, who has filled the place of principal with so much satisfaction for a little over seven years, resigned his position at the end of the fall term to accept a more lucrative position as superintendent of the schools in Hampstead and adjoining towns. Mr. E. S. Rivard of Three Rivers, Mass., a graduate of McGill University takes his place. We find him qualified for the position and ambitious for his pupils to attain a high standard of scholarship.

Miss Clement was unable to continue her work in the musical department. For that position we have engaged Prof. C. H. Osgood, of Laconia, who is the teacher of music in the public schools of Laconia and Meredith. He is doing good work.

We have introduced one new feature into our school in the line of drawing. Mrs. Guildford from the Seminary, who has been supervisor of drawing in the Brooklyn schools of N. Y., has had charge of the drawing department. We are confident that this is no experiment, or useless outlay of money, but meets the demands of a long felt want.

It is with pleasure that we would call attention to our new school building. The highest ideal is not often attained in a school system any more than it is in the life of an individual, but we do know that better work is being accomplished in these well lighted and well ventilated rooms. And yet we need a little more. The rooms are not all furnished. The teachers' room and the hall ought to be furnished at once.

The number of pupils in attendance in the various rooms during the past year is as follows:

	Boys	Girls	Total
First Primary,	34	19	53
Second Primary,	22	14	36
First Intermediate,	26	40	66
Second Intermediate,	21	19	40
First Grammar,	21	29	50
Second Grammar,	21	29	50
